- [3 Nephi 26:6](#)

6 And now there cannot be written in this book even a hundredth part of the things which Jesus did truly teach unto the people;

In all Christian theology, angels also include “seraphim” and “cherubim” as types of angels.

The Urantia Book, however, is saturated with the term/name “Melchizedek,” making usage of the name/word 534 times. There is not much that is NOT answered or explained about Melchizedek. In fact it is one of the most fascinating, next to the life of Jesus

Does the Urantia Book really reveal **a hundred times** more information than other Christian scripture? Consider the following:

The word “**Jesus**” is used:

943 times in the Bible

168 times in the Book of Mormon

108 times in the Doctrine and Covenants

15 times in the Pearl of Great Price

This does not count the references to Jesus as the word-term “Master,” which is often used in the Bible, and very often used in the Urantia Papers.

This word “**Master**” is noted:

It is surely an opinion whether or not the Urantia Book 'is' that “greater record to come,” but, it is a fact that the above mentioned Christian terminologies, and critical tenants of Christianity, are used “a hundred times” so-to-speak, more voluminous in the Urantia Papers, than in the renown Christian scriptures.
