

A message from Dennis...

The thing that's always been on my mind since I first questioned the nature of our being and our relationship with God and the Universe, is where's that Golden Thread that binds us all together... the Fatherhood of God and the Brotherhood of Mankind!

Well, as it turns out, all Religions share the Golden Thread of Love! So my advice is if you want a life of meaning and value, you learn to Love all you can, while you can, and don't stop until the day of your transition, and you'll find all that Love comes pouring back to You!

I thank all of you for all the Love & Kindness you've ever shown me. Please remember from my Heart to Yours, -- No Act of Love or Kindness Ever Goes Unnoticed --

My Love and Blessings to Each of You.

Dennis

The family would like to thank each of you for your presence here today and for all the love and support you have provided throughout this difficult time. With deepest gratitude.

Inspirational Thoughts from
Love Songs from the Heart (Books 1 through 3)
by Dennis Nicomede

Meditation is the practice or state
Where a quiet mind and an open heart
Can embrace the fullness of God.

*When overwhelmed by it all
Don't trouble yourself with trying to figure it out.
The answers will come as the process unfolds.
Just let it flow.*

Knowing of love is one thing,
But *Feeling* it is oh so much sweeter!

If you don't have integrity
You have nothing.
Integrity is structure.

Love openly and see who loves you back.
Be in relationship.
Be kind.

Be compassionate.
Be strong and respectful.
And feel man,
Feel.

"I've always believed in magic, but it was never set in
stone until I met You."

From Meadow Lee (age 11) to Dennis
